Br. Torses, Sir—Knowing the vast amount of suffering existing among females of the present day, and having drank to the dregs, from their bitter cup of affections, I gladly make known what in my own esse has proved the long sought remedy.

My health has been poor for eighteen years, and ten years of that time I spent in bed a helpless sufferer, scarcely able to alt up long enough to have my bed changed.

The misery of those years I cannot describe. Prelipus Uterl with heat, weak ness and pain through small of the back and abdomes, and sharp pains extending down the limbs were among the earlier symptoms.—Walking or standing became difficult at first, and at length utlerly impossible. Soon digestion failed and the entire nervous system seemed unstrung, patplishten of the heart and dizziness and oppression of the head, also added to my sufferings. Physicians from far and near were employed, by one of whom I was salivated and rendered weres than before. Your strep prescription was obtained in October, one year ago. Improvement was slow at first. I have not only beer able to leave my bed, but am now soing zees of my bone work, and can walk a mile and duck without serious in convenience. Yours truy.
